

INKJET TRANSFER PAPER OPERATING INSTRUCTIONS

Compatibility

Most Colour Inkjet Printers

Application

Domestic Iron 1200w or over
Standard T Shirt Heat Press

Do Not Use Commercial Steam Iron Press

Application Method

- Pre heat Iron for about 2 minutes at maximum temperature
- DO NOT USE STEAM
- Place garment on a hard surface DO NOT A USE IRONING BOARD!
- Place image on garment face down
- Iron Image for at least 3 minutes (for images A4). Move the iron constantly. Ensure all corners and edges are well ironed. If the image is particularly large increase ironing time
- Apply pressure
- Allow the garment to cool completely before peeling
- Peel the transfer from the garment exposing the highly glossy image

FIXING – VERY IMPORTANT

- Fix the image by placing an ordinary piece of paper on the image and re ironing it for about 15 seconds. PEEL OFF to skim off the glossy finish and to achieve a matt, flat and thin image on the garment

Washing (recommended to wash before first use)

- Wash garment 24 hours after being transferred
- Turn the garment inside out
- Wash the garment in a washing machine using a 40°C degrees (warm wash) wash cycle with a spin dry at the end. A full regular wash cycle
- DO NOT wash as delicate fabric
- DO NOT hand wash or leave to soak in a tub
- Dry normally in a tumble drier to enhance the longevity of the image

 REFILL - NOT LANDFILL
